

Dear AMCA Member,

HR 872, which amends both FIFRA and the Clean Water Act (CWA) so as not to require NPDES permits for pesticide applications to, over, or near waters of the United States was passed yesterday on a bi-partisan vote of 295 - 130. Thus, the first hurdle for a legislative fix to our CWA has been passed. All of you who most ably assisted in the tremendous effort put forth to secure passage are to be commended. A great deal of hard work communicating the issues to congressional legislators by a cadre of dedicated professionals demonstrated how legislative relief could be obtained.

We **MUST** remember that this only the first step in a process by which both of the statutes can be amended. The Senate constitutes an even more daunting task. The Senate traditionally has served as the more deliberative body in the federal government, often applying the breaks to legislation initiated and passed in the House. Thus, we cannot afford to rest on our laurels, but must redouble our efforts to secure senatorial support for a companion bill now that the path has come open. To this end, the AMCA will immediately begin to draft a strategy that can be employed on the Senate side to capitalize on the leverage provided by the victory in the House. We will be identifying key Senators whose support we must obtain for spearheading a companion bill and will be contacting you via blast email shortly. In the meantime, please review the roll call vote on HR 872 below and identify the legislators in your state and how they voted. This should give you an idea of who may require a bit more education on the need for a legislative fix and how you might gain their support. The more momentum we can ride onto the Senate side, the better.

We have the momentum now and must not lose it. Many thanks to all those who put in the time to educate their legislators and enlist their support. Please follow up with a letter or phone call of thanks and keep them informed of developments. We'll be contacting you shortly to begin the process of enlisting Senate support for a legislative fix. Thanks again for your work, for it certainly paid off!
